### SPW-1-42

#### Front Cover

#### Quick reference chart

- Odd #'s on the Left
- Even #'s on the right
- Just like in an Electrical Panel.
- No more time spent creating similar charts in the field.
- No more Math.

#### Product Identifier

- This is our Universal 10 page, white colored wire marker book. It contains 15 pieces of #'s 1-24 and 5 pieces of #'s 25-42

A-phase  
B-phase  
C-phase

- Perforation to easily adjust size of strip for smaller wire.

- Our books only go to #42 as opposed to our competitors books which go up to #45 or even #48

- Easy to remember part #'s

- Easily tear out used or unused pages

#### First Page

- 15 numbers each line
- All like #'s on same page
- No more flipping pages to find the next #
- Easily know when you are out of a particular #
- Last 2 pages of our slim pack books have 3 separate #'s in each row

- This group is typically pulled together as a homerun, we put them on the same page to make labeling faster

- First row is A-phase
- Second row is B-phase
- Third row is C-phase

- Hole for easy binding of removed pages

#### Front Inside Cover

- Handy 1" scale

- Space for notes

#### Back Inside Cover
