

# Faster and Better Wire Marker Information Sheet

## 480-43-84

### Front Cover

A-phase  
B-phase  
C-phase

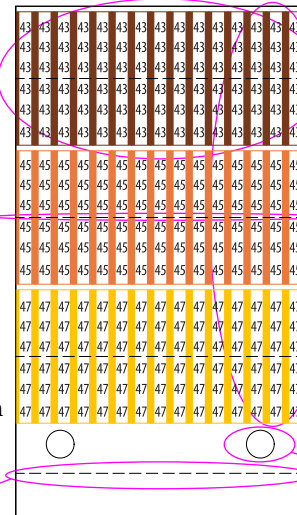

- Perforation to easily adjust size of strip for smaller wire.

- Our books only go to #84 as opposed to our competitors books which go up to #90

- Easy to remember part #'s

- Easily tear out used or unused pages

### First Page

- 15 numbers each line  
- All like #'s on same page  
- No more flipping pages to find the next #  
- Easily know when you are out of a particular #

- This group is typically pulled together as a homerun, we put them on the same page to make labeling faster  
- First row is A-phase  
- Second row is B-phase  
- Third row is C-phase

- Hole for easy binding of removed pages

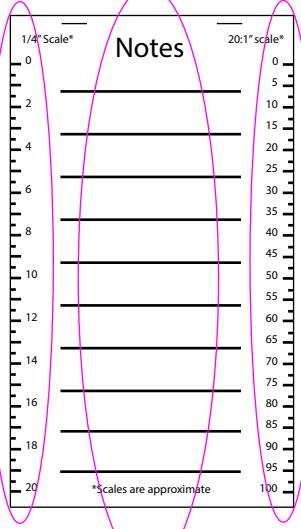

### Quick reference chart

- Odd #'s on the Left
- Even #'s on the right
- Just like in an Electrical Panel.
- No more time spent creating similar charts in the field.
- No more Math.

### Product Identifier

- This is our 480v brown, orange, yellow colored wire marker book

### Front Inside Cover

- Handy 1/4" scale

- Handy 20:1 scale

- Space for notes

### Back Inside Cover

| Circuit Directory |          |
